

## LAFD VEST

The LAFD Vest is a purpose built Ballistic Protective Equipment Vest designed to keep our Firefighters, EMS and First Responders well protected during Critical / Mass Casualty Incidents.

The LAFD Vest is constructed from 500D Cordura Nylon and has an integrated front bellowed pocket to store medical equipment. It also has two removable radio pockets that can be used to store other similar size equipment.

The LAFD Vest comes equipped with our NIJ 0101.06 Certified Level IIIA Soft Armor (Concealment Shape) panels in the front, rear and side cummerbund; providing full upper torso protection.

The front and rear of the vest has external pocket to insert Hard Armor Plates for added protection against rifle threats. (Hard Armor Plates Sold Separately.)

The LAFD Vest can be configured in different variations such as with or without 3M Reflective Tape, addition of MOLLE webbing or Slick.

Contact us if you have specific requirements / specifications.

The LAFD Vest is Made in the USA and is Berry Amendment Compliant.
